WHAT DO YOU WANT FROM MEASUREMENT UNCERTAINTY?

WHAT YOU WILL GET FROM PARTICIPATION

1. Why is it important?
2. An opportunity to share
3. An opportunity to follow up

WHAT DO WE MEAN BY MEASUREMENT UNCERTAINTY?

Correct measurements are essential for a functional and competitive business. Confidence in results closely affects planning, delivery, product performance and customer relationship.

Test and Calibration Laboratory accreditation requires this competence. We will introduce the principles of uncertainty estimation in this semi/webinar.

WHY IS IT IMPORTANT?

This 10-15 minute presentation will introduce the business importance and important elements of the process.

SHARING EXPERIENCES

There will be a 10-15 minute period for responses from both remote and on site participants. This period will enable refinement of customer needs.

BUILDING DEFINITIVE REQUIREMENTS

We will provide you with access to the recorded seminar and to brief survey material to refine requirements further. This will extend to setting importance levels to each need.

SHARING IN THE BENEFITS

Updates to the needs definitions will be ongoing and invitations to future 'What Do You Want from...' events is automatic.
